CHAPTER THREE

RULES OF ORIGIN

Article 3.1: Originating Goods

Except as otherwise provided in this Chapter, a good is originating under this Agreement if:

(a) the good satisfies one of the following conditions:

(i) the good is wholly obtained or produced entirely in the territory of one or both of the Parties as defined in Article 3.2;

(ii) the good has undergone sufficient production as defined in Article 3.3; or

(iii) the good is produced entirely in the territory of one or both of the Parties, exclusively from originating materials; and

(b) the good satisfies all other applicable requirements under this Chapter.

Article 3.2: Wholly Obtained

The following goods are considered wholly obtained and therefore originating in the territory of one or both of the Parties:

(a) mineral goods and other non-living natural resources extracted or taken from the territory of one or both of the Parties;

(b) vegetable goods grown and harvested in the territory of one or both of the Parties;

(c) live animals born and entirely raised in the territory of one or both of the Parties;

(d) goods obtained from live animals referred to in subparagraph (c) in the territory of one or both of the Parties;

(e) goods obtained from hunting, trapping, or fishing conducted within the land territory, internal waters, and the outer limit of the territorial sea of one or both of the Parties;

2. Notwithstanding Annex 3-A and except for a good of Chapters 1 through 21, headings 39.01 through 39.15 or Chapters 50 through 63 of the Harmonized System, a good is considered to have undergone sufficient production and therefore is originating, provided that:

(a) the good cannot satisfy the conditions in Annex 3-A because both the good and one or more of the non-originating materials used in the production of that good are classified in the same subheading, or heading that is not further subdivided into subheadings; and

(b) the value of the non-originating materials classified in the same subheading, or heading that is not further subdivided into subheadings, as the good does not exceed 55 percent of the transaction value or ex-works price of the good.

Article 3.4: Value Test

1. Except as provided in paragraphs 2 and 3, where Annex 3-A specifies a value test to determine whether a good is originating, the good is originating provided that the value of non-originating materials used in the production of the good does not exceed a given percentage of the transaction value or ex-works price of the good as specified in Annex 3-A.

2. For the purposes of a good of headings 87.01 through 87.08, at the choice of an exporter or a producer of such goods, the good is originating provided that the value of non-originating materials used in the production of the good does not exceed the given percentage of either the transaction value or ex-works price of the good, or the net cost of the good.

3. Notwithstanding paragraph 2, for the purposes of a good of headings 87.01 through 87.06, at the choice of an exporter or a producer of such goods, the good is originating provided that the value of originating materials used in the production of the good is not less than a given percentage of the transaction value or ex-

4. For the purposes of calculating the net cost of a good under paragraph 2, the producer of the good may:

(a) calculate the total cost incurred with respect to all goods produced by that producer, subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs that are included in the total cost of all those goods, and then reasonably allocate the resulting net cost of those goods to the good;

(b) Calculate the total cost incurred with respect to all goods produced by that producer, reasonably allocate the total cost to the good, and then subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the portion of the total cost allocated to the good; or

(c) reasonably allocate each cost that forms part of the total cost incurred with respect to the good so that the aggregate of these costs does not include any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, or non-allowable interest costs.

5. For the purposes of calculating the net cost of a good of headings 87.01 through 87.05 under paragraph 4, the producer may average its calculation over its fiscal year using any one of the following categories, on the basis of either all motor vehicles in the category or only those motor vehicles in the category that are exported to the territory of the other Party:

(a) the same model line of motor vehicles in the same class of vehicles produced in the same plant in the territory of a Party;

(b) the same model line of motor vehicles produced in the same plant in the territory of a Pae tTt <</MCID 5 >>BDC4(r)71 Tf2(s)2(i)- -1.73-2(ode)4(l)-2(t)-2(i)-2(or

(e) any other category as the Parties may agree.

6. For the purposes of calculating the net cost under paragraph 4 for a good of headings 87.06 through 87.08 produced in the same plant, the producer may:

(a) average its calculation,

(i) over the fiscal year of the motor vehicle producer to whom the good is sold;

(ii) over any quarter or month, provided that the good was produced during the quarter or month forming the basis for the calculation; or

(iii) over the automotive material producer's fiscal year;

(b) calculate the average referred to in subparagraph (a) separately for any or all goods sold to one or more motor vehicle producers; or

(c) calculate the average in subparagraph (a) or (b) separately for those goods that are exported to the territory of the other Party.

Article 3.5: Materials Used in Production

1. If a non-originating material undergoes sufficient production in the territory of one or both of the Parties, the resulting good is originating and no account shall be taken of the non-originating material contained therein when that good is used in the subsequent production of another good.

2. Except as provided in Article 3.6.2, the "value of non-originating materials", including, for the purposes of this definition, non-originating component goods and non-originating packaging materials and containers as referred to in Article 3.12 and in Annex 3-A, means:

(a) the transaction value or the customs value of the materials at the time of their importation into a Party, adjusted, if necessary, to include freight, insurance, packing, and all other costs incurred in transporting the materials to the place of importation; or

(b) in the case of domestic transactions, the value of the materials determined in accordance with the principles of the Customs Valuation Agreement in the same manner as international transactions, with such modifications as may be required.

2. For the purposes of determining whether a good is an originating good, the production of the good in the territory of one or both of the Parties by one or more producers is, at the choice of the exporter or producer of the good for which preferential tariff treatment is claimed, considered to have been performed in the territory of either of the Parties by that exporter or producer, if:

(a) all non-originating materials used in the production of the good undergo sufficient production as defined in Article 3.3, entirely in the territory of one or both of the Parties; and

(b) the good satisfies all other applicable requirements of this Chapter.

3. The Parties may agree to review this Article with a view to providing for other forms of cumulation, such as cross-cumulation or pan-free-trade-agreement-cumulation for the purpose of qualifying goods as originating goods under this Agreement.

Article 3.8: De Minimis

1. Notwithstanding Article 3.3 and except for a good of Chapters 50 through 63 of the Harmonized System, a good is considered originating, where the value of all non-originating materials used in the production of the good, which do not undergo the applicable change in tariff classification or fulfil any other condition set out in Annex 3-

non rghaing m6ter

3. A good of Chapters 61 through 63 of the Harmonized System, that does not originate because certain non-originating yarns used in the production of the component of the good that determines the tariff classification of that good do not fulfil the conditions set out for that good in Annex 3-A, is considered originating if the total weight of all such yarns in that component does not exceed 10 percent of the total weight of that component.

4. Except as provided in Annex 3-A, paragraph 1 does not apply to a non-originating material used in the production of a good provided for in Chapters 1 through 21 of the Harmonized System unless the non-originating materials are provided for in a different subheading from that of the good for which the origin is being determined under this Article.

Article 3.9: Fungible Materials and Goods

1. For the purposes of determining whether a material or good is an originating material or good, any fungible material or good shall be distinguished by:

(a) physically separating each fungible material or good; or

(b) using any inventory management method recognised in the Generally Accepted Accounting Principles of the Party in which the production y igeal(p)-0.2 -1.emo

(b) when the set or assortment of goods contains non-originating component goods, including packaging materials and containers, the value of the non-originating goods, including any non-originating packaging materials and containers for the set or assortment of goods, does not exceed 15 percent of the transaction value or ex-works price of the set or assortment of goods.

Article 3.11: Accessories, Spare Parts and Tools

Accessories, spare parts, and tools delivered with a good that form part of its standard accessories, spare parts, or tools are considered originating if the good originates and shall be disregarded in determining whether all the non-originating materials undergo the applicable conditions set out in Annex 3-A, provided that:

(a) the accessories, spare parts, or tools are not invoiced separately from the good; and

(b) the quantities and value of the accessories, spare parts, or tools are customary for the good.

Article 3.12: Packaging Materials and Containers for Retail Sale

Except as provided for in Article 3.10 and in Annex 3-A**,** packaging materials and containers in which a good is packaged for sale shall be disregarded in determining whether all the non-originating materials undergo the applicable conditions as set out in Annex 3-A.

Article 3.13: Packing Materials and Containers for Shipment

Packing materials, containers, pallets, or similar articles, in which a good is packed for shipment is disregarded in determining the origin of that good.

Article 3.14: Indirect Materials

For the purposes of determining whether a good is originating, it is not necessary to determine the origin of indirect materials used in production, testing or inspection of that good, but which have not entered into the final composition of the good, or which have been used in the maintenance of equipment and buildings or the operation of equipment associated with the production of a good including:

(a) energy and fuel;

(b) tools, dies, and moulds;

(c) spare parts and materials used in the maintenance of equipment and buildings;

(d) lubricants, greases, compounding materials, and other materials used in production or used to operate equipment and buildings;

(e) gloves, glasses, footwear, clothing, safety equipment, and safety supplies;

(f) equipment, devices, and supplies used for testing or inspecting goods; and

(g) any other goods that are not incorporated into the good but the use of which in the production of the good can reasonably be demonstrated to be part of that production.

Article 3.15: Principle of Territoriality

1. The conditions for acquiring originating status set out in Articles 3.1 through 3.20 must be fulfilled without interruption in the territory of one or both of the Parties.

2. Notwithstanding paragraph 1, an originating good exported from a Party to a non-party shall, when returned, be considered originating if it is demonstrated to the satisfaction of the customs authorities in accordance with the laws and regulations of the importing Party concerned that the returning good:

(a) is the same as that exported; and

(b) has not undergone any operation beyond that necessary to preserve it in good condition while in that non-party or being exported.

Article 3.16: Transit and Transhipment

An originating good that is transported through the territory of a non-party is non-originating unless it can be demonstrated that the good:

(a) undergoes no further production or other operation in the territory of that non-party, other than unloading, splitting up of loads for transport reasons, reloading, or any other operation necessary to preserve it in good condition;

(b) remains under the customs control while outside the territory of one or both of the Parties; and

(c) does not enter into trade or consumption in the territory of that non-party.

Article 3.17: Application and Interpretation

For the purposes of this Chapter:

(a) the basis for tariff classification is the Harmonized System;

(b) if applying Article 3.3.2, the determination of whether a heading or subheading under the Harmonized System provides for both a good and the materials that are used in the production of the good is made on the basis of the nomenclature of the heading or subheading and the relevant Section or Chapter Notes, in accordance with the General Rules for the Interpretation of the Harmonized System;

(c) in applying the Customs Valuation Agreement under this Chapter:

(i) the principles of the Customs Valuation Agreement apply to domestic transactions, with any modifications required by the circumstances, as they would apply to international transactions;

(ii) the provisions of this Chapter take precedence over the Customs Valuation Agreement to the extent of any difference; and

(iii) the definitions in Article 3.20 shall take precedence over the definitions in the Customs Valuation Agreement to the extent of any difference.

Article 3.18: Discussions and Modifications

1. The Parties shall discuss regularly to ensure that this Chapter is administered effectively, uniformly, and consistently with the spirit and objectives of this Agreement, and cooperate in the administration of this Chapter in accordance with Chapter Four (Origin Procedures and Trade Facilitation).

2. A Party that considers that this Chapter requires modification to take into account developments in production processes or other matters may submit a proposed modification along with supporting rationale and any studies to the other Party for consideration and any appropriate action pursuant to Article 4.14 (Rules of Origin and Customs Committee).

Article 3.19: Common Guidelines

The Parties shall discuss whether to develop common guidelines for the interpretation and application of this Chapter by the date of entry into force of this Agreement.

Article 3.20: Definitions

For the purposes of this Chapter:

Chapter, unless otherwise specified, means a chapter of the Harmonized System;

classified means the classification of a good under a particular heading or subheading of the Harmonized System;

originating good or **originating material** means a good or material, respectively, that qualifies as originating;

other costs means all costs recorded on the books of the producer that are not product costs or period costs, such as interest;

period costs means those costs, other than product costs, that are expensed in the period in which they are incurred, such as selling expenses and general and administrative expenses;

producer means a person who engages in the production of a good in the territory of a Party;

product costs means those costs associated with the production of a good and includes the value of materials, direct labour costs, and direct overhead;

production means a method of obtaining goods, including growing, mining, harvesting, fishing, raising, trapping, hunting, manufacturing, processing, assembling, or disassembling a good;

reasonably allocate means to apportion in a manner appropriate to the circumstances;

royalties means payments of any kind, including payments under technical assistance or similar agreements, made as consideration for the use or right to use any copyright, literary, artistic, or scientific work, patent, trademark, design, model, plan, or secret formula or process, excluding those payments under technical assistance or similar agreements that can be related to specific services such as:

(a) personnel training, without regard to where it is performed; and

(b) if performed in the territory of one or both of the Parties, engineering, tooling, die-setting, software design and similar computer services, or other services;

sales promotion, marketing, and after-sales service costs means costs related to:

(a) sales or marketing promotion; media advertising; advertising or market research; promotional or demonstration materials; exhibits; sales conferences, trade shows, or conventions; banners; marketing displays; free samples; sales, marketing, or after-sales service literature (product brochures, catalogues, technical literature, price lists, service manuals, or sales aid information); establishment or protection of logos and trademarks; sponsorships; wholesale or retail restocking charges; entertainment;

(b) tai-4(r)-2 Tc 0.002 T in a r

(i) property insurance premiums, taxes, utilities, or repair or maintenance of sales promotion, marketing or after-sales service offices or distribution centres, if those costs are identified separately for sales promotion, marketing or after-sales service of goods on the financial statements or cost accounts of the producer; and

(j) payments by the producer to other persons for warranty repairs;

self-produced material means a material produced by a producer of a good and used in the production of that good;

shipping and packing costs means the costs incurred in packing a good for shipment and shipping the good from the point of direct shipment to the buyer, excluding costs of preparing and packaging the good for retail sale;

tariff provision means a Chapter, heading, or subheading of the Harmonized System;

territorial sea means an area of the sea extending up to a limit of 12 nautical miles from baselines determined in accordance with Part II of UNCLOS;

total cost means product costs, period costs, and other costs incurred in the territory of one or both of the Parties. Total cost does not include profits earned by the producer, regardless of whether they are retained by the producer, or paid out to other persons as dividends, or taxes paid on those profits, including capital gains taxes;

transaction value means the price actually paid or payable for a good or material with respect to a transaction of the producer of the good, adjusted in accordance with the principles of paragraphs 1, 3 and 4 of Article 8 of the Customs Valuation Agreement to include, inter alia, such costs as commissions, production assists, royalties, or license fees; and

transaction value or **ex-works price of the good,** including, for the purposes of this definition, sets or assortments of goods of Article 3.10 and of Annex 3-A, means:

(a) the transaction value of a good when sold by the producer at the place of production; or

(b) the customs value of that good

adjusted, if necessary, to exclude any costs incurred subsequent to the good leaving the place of production, such as freight and insurance.

Annex 3-A

Product Specific Rules

Section A – General Interpretative Notes

1. For the purposes of interpreting the rules of origin set out in this Annex:

(a) the specific rule, or specific set of rules, that applies to a particular heading, subheading, or group of headings or subheadings is set out immediately adjacent to that heading, subheading, or group of headings or subheadings;

(b) a requirement of a change in tariff classification or any other condition set out in a specific rule applies only to non-originating materials;

(c) reference to weight in the rules for goods provided for in Chapters 1 through 24 of the Harmonized System means dry weight unless otherwise specified in the Harmonized System;

(d) the expressions "a change from any other heading" or "a change from any

(f) the expression

- "a change from within that heading",
- "a change from within that subheading",
- "a change from within any one of these headings",
- "a change from within any one of these subheadings",
- "

(h)

4. Where a rule of this Annex applicable to a good contains both a required change in tariff classification and a percentage for the maximum value of non-originating materials, and one or more of the non-originating materials used in the production of the good are classified in the same subheading or heading that is not further subdivided into subheadings, as the good itself, Article 3.3.2 may be used. Article 3.3.2 provides that, in such instances, the good shall be considered as originating, if the value of the non-originating materials classified as or with the good does not exceed 55 percent of the transaction value or ex-works price of the good. Given that the resulting good qualifies as originating in its own right, no account shall be taken of the non-originating materials contained therein when that good is used in the production of another good. In this particular instance, only the value of any other non-originating materials that are used in the production of the final good and that satisfy the required change in tariff classification set out in the rule of this Annex would need to be taken into account when calculating the value of non-originating materials for purposes of determining the origin of the final good.

5. The product specific rules set out in this Annex also apply to used goods.

Chapter 27	Mineral Fuels, Mineral Oils and Products of Their Distillation; Bituminous Substances; Mineral Waxes

Note 1: For the purposes of headings 27.07 and 27.10, the "chemical reaction" is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of this definition:

(a) dissolving in water or other solvents;

(b) the eliminating of solvents including solvent water; or

(c) the addition or eliminating inion; ui(r)6(liz)4(a)1ddie

(b) Vacuum distillation – Distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation.

Note 3: For purposes of heading 27.10, "direct blending" is defined as a refinery process whereby various petroleum streams from processing units and petroleum components from holding/storage tanks combine to create a finished product, with pre-determined parameters, classified under heading 27.10, provided that the non-originating material constitutes no more than 25 percent by volume of the good.

27.01 – 27.06 A change from any other heading.

2707.10 – 2707.91 A change from any other heading; or

A change from any other subheading within heading 27.07, whether or not there is also a change from any other heading, provided that the good resulting from such change is the product of a chemical reaction.

2707.99 A change from any other heading;

A change to phenols of subheading 2707.99 from any other good of subheading 2709.99 or any other subheading, whether or not there is also a change from any other heading, provided that the good resulting from such change is the product of a chemical reaction; or

A change to any other good of subheading 2707.99 from crude oils of subheading 2709.99 or any other subheading, whether or not there is also a change from any other heading, provided that the good resulting from such change is the product of a chemical reaction.

27.08 – 27.09 A change from any other heading.

27.10	A change from any other heading;	
	A change as a result of one of the processes specified in Notes 1 and 2 to this Chapter; or	
	A change as a result of direct blending, provided that the non-originating material constitutes no more than 25 percent by volume of the good.	
2711.11 – 2711.13	A change from within any one of these subheadings or any other subheading, provided that the non-originating feedstock constitutes no more than 49 percent	or

Note 4:	Purification A good of this Chapter that is subject to purification shall be treated as an originating good provided that the purification occurs in the territory of one or both of the Parties and results in the elimination of not less than 80 percent of the impurities
Note 5:	Separation Prohibition A good that undergoes a change from one classification to another in the territory of one or both of the Parties as a result of the separation of one or more materials from a man-made mixture shall not be treated as an originating good unless the isolated material underwent a chemical reaction in the territory of one or both of the Parties.
2801.10 – 2803.00	A change from any other subheading.
2804.10 – 2804.69	A change from any other heading.
